Streamline everyday processes

Centralize submissions in a single location to simplify information management and eliminate manual delays.

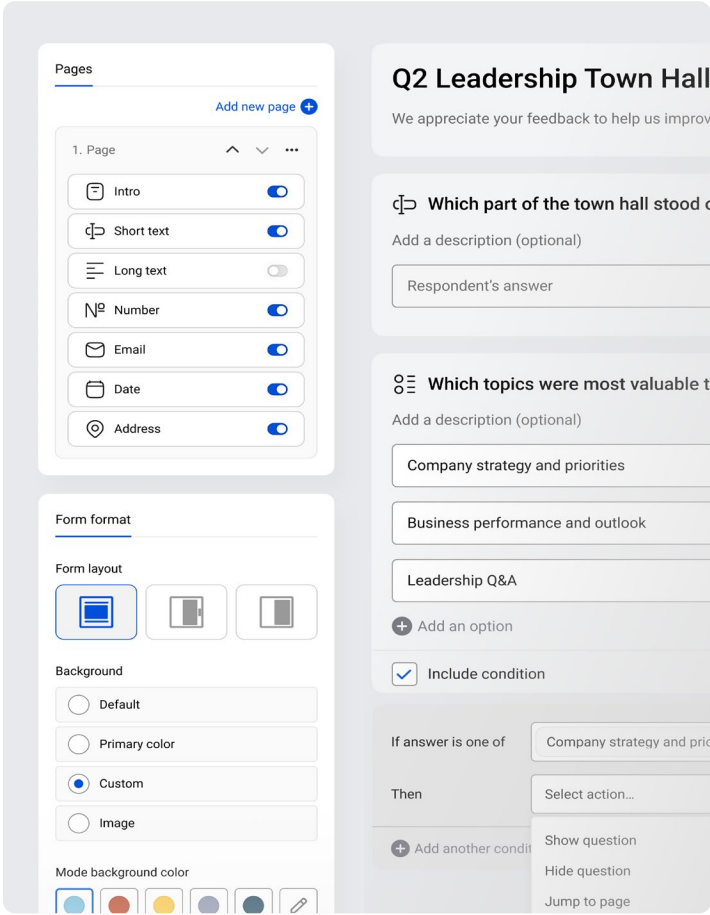

Reduce tool sprawl, strengthen governance

Replace external tools like Google Forms to reduce support workloads and improve data oversight.

Improve participation and response quality

Boost response quality by providing an intuitive, on-brand experience directly inside your intranet.

Key features

Form creation

- Drag-and-drop, no-code form builder
- Rich field types (text, dropdowns, dates, ratings, file upload, etc.)
- Conditional logic to show/hide questions
- Required fields and validation

Management and governance

- Duplicate, edit, archive, or delete forms
- Configurable closing dates and single/multiple submission rules
- ABAC-based audience targeting
- Org-level enable/disable control and notification settings

Distribution and access

- Share via link, email, or QR code
- Add Forms tile on Home or Site dashboard
- Mobile-friendly user experience

Analytics and reporting

- Real-time response tracking and completion rates
- Individual response review
- CSV export delivered via email

Common use cases

Teams can easily set up consistent, repeatable processes whenever they need organized information from employees. Examples include:

Event and training feedback

Departmental service intake

Program interest and enrollment

Operational check-ins

Event logistics

About Simpplr
